RESPONSE TO RESTRICTION REQUIREMENT

Alexandria, VA 22313-1450

Dear Sir:

Responsive to the Office Action mailed December 9, 2004, and the restriction requirement made therein, applicants provisionally elect Group I, claims 1-22, drawn to a method of forming openings, for continued examination herein.

Applicants traverse the restriction requirement on the grounds that 35 USC § 121 authorizes restriction only when the claimed invention is "independent and distinct" (emphasis added). A search of the subject matter of Group I, claims 1-22, drawn to a method of forming openings would require a search of the subject matter of Group II, claims 23-29 drawn to a greensheet. Thus the method delineated in Group I is not directed to an independent and distinct matter.

Respectfully submitted,

Peter W. Peterson
